PROFESSIONAL SUMMARY

Product-focused Technical Analyst with experience in software testing, validation, and application support. Skilled in executing test cases, identifying defects, and ensuring system reliability through structured testing and analysis. Experience working in Agile environments, collaborating with developers and stakeholders to deliver high-quality software solutions. Strong attention to detail with a focus on continuous improvement and user experience.

EDUCATION

University of Saskatchewan
Bachelor of Science, Computer Science

Saskatoon, SK

EMPLOYMENT HISTORY

Housing Support Worker / Event Coordination's Volunteer
The Mustard Seed

May 2024 – Present
Saskatoon, SK

- Provided front-line support to individuals, resolving service issues and responding to urgent requests in a fast-paced environment.
- Collected and documented client information and service interactions, ensuring accurate records and consistent follow-up.
- Identified recurring issues and contributed to process improvements that reduced response times by 30%.
- Managed multiple service requests simultaneously, prioritizing tasks and ensuring timely resolution.

IT Solutions & Research Intern
University of Saskatchewan

May 2025 – August 2025
Saskatoon, SK

- Provided technical support for 25+ users, managing and resolving tickets involving application and software issues.
- Triageed and diagnosed technical issues, documenting defects and supporting resolution through testing and validation.
- Created 10+ technical documents, including troubleshooting guides and workflows, improving resolution time and reducing repeat tickets.

PROJECTS

Full-Stack & Systems Development Projects | *JavaScript, Python, Go, HTML/CSS* October 2025

- Developed and tested full-stack applications, validating functionality against defined requirements.
- Designed and executed test scenarios to ensure system reliability, accuracy, and performance.
- Identified, documented, and resolved defects during development and testing phases.
- Optimized SQL databases and validated data integrity through structured testing.
- Collaborated in Agile environments, participating in sprint cycles and code reviews.

SumData – AI Clinical Documentation Assistant | *JavaScript, Godot (GDScript), HTML/CSS* January 2026

- Analysed and structured input data to generate meaningful outputs for clinical and patient reporting.
- Designed data workflows to ensure accuracy, consistency, and usability of generated reports.
- Tested and validated outputs to ensure data reliability and correctness.
- Presented data insights and system improvements to stakeholders in clear, accessible language.
